

## 2009 POSTER PRIZES

### GENERAL CHEMISTRY

Linus Pauling

**Pauling Prize, IUCr Prize, Canadian Pauling Prize**  
Graduate and undergraduate students only - no post-docs. Awarded to the best student poster presentations. The Canadian Pauling Prize is sponsored by the Canadian Division of the ACA and the Canadian National Committee, will be given to the highest ranked poster from a Canadian laboratory. Each award consists of \$200, a complimentary banquet ticket, and a copy of Linus Pauling's "General Chemistry". The IUCr Executive Committee is pleased to continue the series of IUCr

awards to be presented at meetings of the regional affiliates and national crystallographic associations. The Award is complimentary online access to all IUCr journals for one year or a complimentary volume of International Tables or another IUCr publication. Winners will be announced at the banquet on Wednesday, July 29. Please indicate your wish to be considered with your abstract submission.

AMERICAN  
INSTITUTE  
OF PHYSICS

### AIP Undergraduate Research Prize

The Undergraduate Research Poster Prize and Undergraduate Research Presentation Prize, both sponsored by the American Institute of Physics through the Society of Physics Students, will be presented to undergraduate students at the banquet. The winners will each receive \$200 and a banquet ticket. Posters and oral presentations will be judged by a committee, during the time the student is presenting his/her research. Presentations and posters will be judged on organization and clarity, presentation, and report of the research. To be eligible, the poster or oral presentation must describe research with a significant crystallographic component, students must demonstrate a command of the science, and students must have completed the majority of the work being presented. Please indicate your wish to be considered for either of these awards with your abstract submission.

### RCSB Protein Data Bank Prize

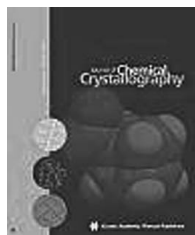

This prize is to recognize a student poster presentation involving macromolecular crystallography. The prize is open to graduate and undergraduate students only - no postdoctoral posters. The winner will be announced at the banquet and an announcement will appear on the PDB web site and in the PDB Newsletter. Please indicate your wish to be considered with your abstract submission.

### Oxford Cryosystems Prize

The Oxford Cryosystems Low Temperature Prize is awarded to any poster describing work in low temperature crystallography. The winner will receive a prize of \$500 donated by Oxford Cryosystems, Inc. The winner will be announced at the banquet on Wednesday, July 29. Please indicate your wish to be considered with your abstract submission.

OxfordCryosystems

### The Journal of Chemical Crystallography Prize

The Journal of Chemical Crystallography proudly sponsors a prize to be awarded to the best student poster presentation in the area of chemical crystallography or small molecule structure determination and analysis. The winner will receive a one-year subscription to the Journal of Chemical Crystallography and a \$200 Springer book voucher. The winner will be announced at the banquet on Wednesday, July 29. Please indicate your wish to be considered with your abstract submission.
